## EPA Region I (Boston) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's Boston regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for the most effective interaction with the EPA.

US EPA Region I  
1 Congress St.  
Boston, MA 02114-2023

**Region I Site Remediation & Restoration Division:** Director: James T. Owens (617) 918-1201, owens.james@epa.gov; Deputy Director: Rich Cavagnero (617) 918-1202, cavagnero.rich@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

**Region I Remediation & Restoration Branch Chief:** Larry Brill (617) 918-1301, brill.larry@epa.gov

**Technical & Support Branch Chief:** Stan Chin (617) 918-1401, chin.stan@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The branch chief is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), who are responsible for the overall management of each site cleanup report to the SF branch chief.

**Regional Superfund and Technology Liaison (STL):** Stephen Mangion (617) 918-1452, mangion.steve@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator (RTIC):** Margaret McDonough (617) 918-1276, mcdonough.margaret@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

**Regional Science Liaison (RSL):** Robert Hillger (617) 918-1071, hillger.robert@hotmail.com

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

**Region I Community Involvement Coordinator:** Nancy Grantham (617) 918-1101, [grantham.nancy@epa.gov](mailto:grantham.nancy@epa.gov)

Superfund's community involvement coordinators reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

**Regional Environmental Justice (EJ) contact:** Amy Braz (617) 918-1346, [braz.amy@epa.gov](mailto:braz.amy@epa.gov)

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**Regional Administrator for Region I:** Curt Spalding (617) 918-1012, [spalding.curt@epa.gov](mailto:spalding.curt@epa.gov); Deputy Regional Administrator: Ira Leighton (617) 918-1011, [leighton.ira@epa.gov](mailto:leighton.ira@epa.gov)

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

**EPA Region I Organizational Chart:**

---

**Agency for Toxic Substances and Disease Registry (ATSDR) Senior Regional Representative:** William Sweet (617) 918-1490, [wsweet@cdc.gov](mailto:wsweet@cdc.gov)

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

## EPA Region II (New York) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's New York regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and developing a strategy for most effective interaction with the EPA.

EPA Region II  
290 Broadway  
New York, NY 10007-1866

**Region II Emergency and Remedial Response Division:** Walter Mugden (212) 637-4390, mugden.walter@epa.gov; Deputy Director: John LaPadula, lapadula.john@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

**New Jersey Remedial Branch:** Carole Petersen (212) 637-4220, petersen.carole@epa.gov

**New York Remedial Branch:** Thomas Lieber (212) 637-3158, lieber.thomas@epa.gov

**Special Projects Branch:** Angela Carpenter (212) 637- 4435, carpenter.angela@epa.gov

These are the organizational units that report directly to the Superfund Division Director. The branch chiefs are usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), who are responsible for the overall management of each site cleanup, report to the SF branch chiefs.

**Regional Superfund and Technology Liaison (STL):** Jon Josephs (212) 637-4317, josephs.jon@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator (RTIC):** Marian Olsen (212) 637-4313, olsen.marian@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

**Regional Science Liaison (RSL):** Marie O'Shea (732) 482-1081, oshea.marie@epa.gov

The Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research programs services for air, water, pesticides, and hazardous waste.

**Region II Public Affairs Division:** Bonnie Bellow (212) 637-3660, [bellow.bonnie@epa.gov](mailto:bellow.bonnie@epa.gov)

Superfund's Public Affairs Officers reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

**Regional Environmental Justice (EJ) contact:** Terry Wesley (212) 637-5027, [wesley.terry@epa.gov](mailto:wesley.terry@epa.gov)

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**Regional Administrator for Region II:** Judith Enck (212) 637-5000, [enck.judith@epa.gov](mailto:enck.judith@epa.gov); Deputy Regional Administrator: George Pavlou (212) 637-5000, [pavlou.george@epa.gov](mailto:pavlou.george@epa.gov)

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

**EPA Region II Organizational Chart:**

[http://www.epa.gov/aboutepa/orgchart\\_r2.html](http://www.epa.gov/aboutepa/orgchart_r2.html)

---

**Agency for Toxic Substances and Disease Registry (ATSDR) Senior Regional Representative:** Leah Graziano (212) 637-4306, [escobar.leah@epa.gov](mailto:escobar.leah@epa.gov)

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site, and bring aboard other ATSDR scientific staff when conducting site health assessments.

## EPA Region III (Philadelphia) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's Philadelphia regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for most effective interaction with the EPA.

EPA Region III  
1650 Arch St.  
Philadelphia, PA 19103-2029

**Region III Hazardous Site Cleanup Division Director:** Kathryn Hodgkiss (215) 814-3200, hodgkiss.kathy@epa.gov; Deputy Director: William Early (215) 814-2626, early.william@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

**Office of Superfund Site Remediation:** Jim Webb (215) 814-3169, webb.jim@epa.gov

**Office of Federal Facility Remediation and Site Assessment:** Henry J. Sokolowski (215) 814-3348, solokowski.hank@epa.gov

These are the organizational units that report directly to the Hazardous Site Cleanup Division Director. The office chiefs are usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), who are responsible for the overall management of each site cleanup report to the SF office chiefs.

**Regional Superfund and Technology Liaison:** Bill Hagel (215) 814-3053

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator (RTIC):** Dawn Ioven (215) 814-3320, ioven.dawn@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.  
Regional Superfund Technical Liaison (STL): William Hagel (215) 814-3053

**Regional Science Liaison (RSL):** Ronald Landy 202-564-3626, landy.ron@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

**Region III Community Involvement Coordinator:** Helen DuTeau (215) 814-5521, [duteau.helen@epa.gov](mailto:duteau.helen@epa.gov)

Superfund's Community Involvement Coordinators reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

**Regional Environmental Justice (EJ) contact:** Reginal Harris (215) 814-2988, [harris.reggie@epa.gov](mailto:harris.reggie@epa.gov)

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**Regional Administrator for Region III:** Shawn Garvin (215) 814-2998, [garvin.shawn@epa.gov](mailto:garvin.shawn@epa.gov)

**Deputy Regional Administrator:** William Early (215) 814-2900, [early.william@epa.gov](mailto:early.william@epa.gov)

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

---

**Agency for Toxic Substances and Disease Registry (ATSDR):** Lora Werner (215) 814-3141, [lwerner@cdc.gov](mailto:lwerner@cdc.gov)

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

## EPA Region IV (Atlanta) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's Atlanta regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for most effective interaction with the EPA.

US EPA Region IV  
Sam Nunn Atlanta Federal Center  
61 Forsyth Street, SW  
Atlanta, GA 30303-8960

**Region IV Superfund Division Director:** Franklin Hill (404) 562-8599, hill.franklin@epa.gov; Deputy Division Director: Randall Chaffins (404)562-8599, chaffins.randall@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation

**Region IV Superfund Remedial and Site Assessment Branch Chief:** Don Rigger (404) 562-8744, rigger.don@epa.gov

**Region IV Remedial Branch Chief:** Carol Monell (404) 562-8719, monell.carol@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The branch chief is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), responsible for the overall management of each site cleanup, report to the SF branch chief.

**Regional Superfund and Technology Liaison:** Felicia Barnett (404) 562-8659, barnett.felicia@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator (RTIC):** Glenn Adams (404) 562-8771, adams.glenn@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.  
Regional Superfund Technical Liaison (STL): Felicia Barnett (404) 562-8659

**Regional Science Liaison (RSL):** Tom Baugh (404) 562-8275, baugh.thomasl@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

**Region IV Office of External Affairs - Environmental Outreach:** Kara Belle (404) 562-8322, belle.kara@epa.gov

Superfund's Environmental Outreach Coordinator reaches out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

**Regional Environmental Justice contact:** Cynthia Peurifoy (404) 562-9649, peurifoy.cynthia@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**Regional Administrator for Region IV:** Gwendolyn Keyes-Fleming (404) 562-8357, keyesfleming.gwendolyn@epa.gov; Deputy Regional Administrator: Stan Meiburg (404) 562-8357, meiburg.stan@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

---

**Agency for Toxic Substances and Disease Registry (ATSDR):** Senior Regional Representative: Robert (Bob) E. Safay (404) 562-1782, rsafay@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

## EPA Region V (Chicago) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's Chicago regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for most effective interaction with the EPA.

EPA Region V  
77 W. Jackson Blvd  
Chicago, IL 60604

**Region V Superfund Division:** Richard (Rick) Karl, Director 312-353-9295, karl.richard@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

**Remedial Response Branch # 1:** Wendy Carney (312) 353-6553, carney.wendy@epa.gov

**Remedial Response Branch # 2:** Jim Mayka (312) 353- 9229, mayka.james@epa.gov

These are the organizational units that report directly to the Hazardous Site Cleanup Division Director. The branch chiefs are usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), who are responsible for the overall management of each site cleanup report to the SF branch chiefs.

**Regional Superfund and Technology Liaison (STL):** Charles Maurice (312) 886-6635, maurice.charles@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator:** Andrew Podowski (312) 886-7573, podowski.andrew@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

**Regional Science Liaison (RSL):** Carole Braverman (312) 353-7359, braverman.carole@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

**Region V Office of Public Affairs:** Anne Rowan (312) 353-9391, rowan.anne@epa.gov

Superfund's Community Involvement Coordinators reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

**Regional Environmental Justice (EJ) contact:** Alan Walts (312) 353-8894, walts.alan@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**EPA Region V Regional Administrator:** Susan Hedman (312) 886-3000, hedman.susan@epa.gov

**Deputy Regional Administrator:** Bharat Mathur (312) 886-3000, mathur.bharat@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

**EPA Region V Organizational Chart:**

---

**Agency for Toxic Substances and Disease Registry (ATSDR):** Mark Johnson, Ph.D. (312) 353-3436, johnson.mark@epa.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

## EPA Region VI (Dallas) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's Dallas regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for most effective interaction with the EPA.

US EPA Region VI  
1445 Ross Ave., Ste 1200  
Dallas, TX 75202

**Region VI Superfund Division Director:** Sam Coleman (214) 665-3110, coleman.sam@epa.gov; Deputy Director: Pam Phillips (214) 665-6701, phillips.pam@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

**Region VI Superfund Remedial Branch Associate Director:** Charles Faultry (214) 665-2731, faultry.charles@epa.gov

**Technical & Enforcement Branch Associate Director:** Sing Chia (214) 665-8301, chia.sing@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The associate director is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), responsible for the overall management of each site cleanup, report to the Technical & Enforcement Branch Associate Director.

**Regional Superfund and Technology Liaison (STL):** Terry Burton (214) 665-7139, burton.terry@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator (RTIC):** Ghassan Khoury (214) 665-8515, khoury.ghassan@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

**Regional Science Liaison (RSL):** Michael Morton (214) 665-8329, morton.michael@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

**Region VI Community Involvement Team:** Beverly Negri (214) 665-8157, [negri.beverly@epa.gov](mailto:negri.beverly@epa.gov)

Superfund's Community Involvement Team reaches out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

**Compliance Assurance and Enforcement:** Director: John Blevins (214) 665-2210, [blevins.john@epa.gov](mailto:blevins.john@epa.gov); Deputy Director: Steve Gilrein (214) 665-8179, [gilrein.stephen@epa.gov](mailto:gilrein.stephen@epa.gov)

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**Regional Administrator for Region VI:** Alfredo Armendariz 214-665-2100, [armendariz.al@epa.gov](mailto:armendariz.al@epa.gov); Deputy Regional Administrator Lawrence Starfield 214-665-2100, [starfield.lawrence@epa.gov](mailto:starfield.lawrence@epa.gov)

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level. SRP may be familiar with DRA-level management in the Region.

---

**Agency for Toxic Substances and Disease Registry (ATSDR):** Senior Regional Representative: George Pettigrew (214) 665-8361, [gpettigrew@cdc.gov](mailto:gpettigrew@cdc.gov)

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

## EPA Region VII (Kansas City) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's Kansas City regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for most effective interaction with the EPA.

US EPA Region VII  
901 N. 5th Street  
Kansas City, KS 66101

**Region VII Superfund Division Director:** Cecilia Tapia (913) 551-7733, [tapia.cecilia@epa.gov](mailto:tapia.cecilia@epa.gov); Deputy Director: Robert Jackson (913) 551-7952, [jackson.robertw@epa.gov](mailto:jackson.robertw@epa.gov)

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

**Region VII Superfund Branch Chief:** Cheryle Micinski (913) 551-7274, [micinski.cheryle@epa.gov](mailto:micinski.cheryle@epa.gov)

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The branch chief is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), responsible for the overall management of each site cleanup, report to the SF branch chief.

**Regional Superfund and Technology Liaison (STL) :** Robert Weber (913) 551-7918, [weber.robert@epa.gov](mailto:weber.robert@epa.gov)

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator (RTIC):** Michael Beringer (913) 551-7351, [beringer.michael@epa.gov](mailto:beringer.michael@epa.gov)

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

**Regional Science Liaison (RSL):** Brenda Groskinsky (913) 551-7188, [groskinsky.brenda@epa.gov](mailto:groskinsky.brenda@epa.gov)

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

**Region VII Office of Public Affairs - Office Manager:** Nancy Surber (913) 551-7305, surber.nancy@epa.gov

Superfund's Public Affairs Office reaches out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

**Regional Enforcement Coordination Office - Director:** Mark Hague (913) 551-7546, hague.mark@epa.gov;  
Environmental Justice Team Leader: Althea Moses (913) 551-7649, moses.althea@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**Regional Administrator for Region VII:** Karl Brooks (913) 551-7003; Deputy Regional Administrator: William Rice (913) 551-7003, rice.william@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

---

**Agency for Toxic Substances and Disease Registry (ATSDR):** Senior Regional Representative: Denise Jordan-Izaguirre (913) 551-1310, djordan-izaguirre@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

## EPA Region VIII (Denver) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's Denver regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for most effective interaction with the EPA.

US EPA Region VIII  
1595 Wynkoop St.  
Denver, CO 80202-6312

**Region VIII Ecosystems Protection and Remediation Office - Assistant Regional Administrator:** Carol Campbell (303) 312-6340, [campbell.carol@epa.gov](mailto:campbell.carol@epa.gov)

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The Assistant Regional Administrator reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

**Region VIII Superfund Remedial Program Director:** Bill Murray (303) 312-6401, [murray.bill@epa.gov](mailto:murray.bill@epa.gov)

This is the organizational unit(s) that report(s) directly to the Ecosystems Protection and Remediation Office Administrator. The Director is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), responsible for the overall management of each site cleanup report to the SF branch chief.

**Regional Superfund and Technology Liaison (STL):** Kathleen Graham (303) 312-6137, [graham.kathleen@epa.gov](mailto:graham.kathleen@epa.gov)

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator (RTIC):** Susan Griffin (303) 312-6651, [griffin.susan@epa.gov](mailto:griffin.susan@epa.gov)

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

**Regional Science Liaison (RSL):** Patti Tyler (303) 312-6081, [tyler.patti@epa.gov](mailto:tyler.patti@epa.gov)

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

**Region VIII Community Public Liaison:** Sonya Pennock (303) 312-6600, pennock.sonya@epa.gov

Superfund's Community Public Liaison reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

**Regional Office of Enforcement, Compliance, and Environmental Justice - Acting Assistant Regional Administrator:** Mike Gaydosh (303) 312-6773, gaydosh.mike@epa.gov; Acting Deputy Assistant Regional Administrator: Sharon Kercher (303) 312-6051, kercher.sharon@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**Regional Administrator for Region VIII:** James Martin (303) 312-6308, martin.jamesb@epa.gov; Deputy Regional Administrator Carol Rushin (303) 312-6976, rushin.carol@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

**EPA Region VIII Organizational Chart:**

---

**Agency for Toxic Substances and Disease Registry (ATSDR):** Regional Representative: Chris Poulet (303) 312-7013, cpoulet@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

## EPA Region IX (San Francisco) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's San Francisco regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for most effective interaction with the EPA.

US EPA Region IX  
75 Hawthorne St.  
San Francisco, CA 94105

**Region IX Superfund Division Director:** Jane Diamond (415) 972-3275, diamond.jane@epa.gov; Deputy Director: Daniel Meer (415) 972-3132, meer.daniel@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

**Region IX Partnerships, Land Revitalization & Cleanup Branch - Branch Chief:** Elizabeth Adams (415) 972-3183, adams.elizabeth@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The branch chief is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), responsible for the overall management of each site cleanup, report to the SF branch chief.

**Regional Superfund and Technology Liaison (STL):** Michael Gill (415) 972-3054, gill.michael@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator (RTIC):** Dan Stralka (415) 972-3048, stralka.daniel@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

**Regional Science Liaison (RSL):** Matthew Small (415) 972-3366, small.matthew@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

**Regional Compliance and Enforcement (Environmental Justice):** Jim Grove (415) 947-4263, grove.jim@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**Regional Administrator for Region IX:** Jared Blumenfeld (415) 947-8702, blumenfeld.jared@epa.gov; Deputy Regional Administrator: Keith Takata (415) 947-8709, takata.keith@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

**EPA Region IX Organizational Chart:**

<http://www.epa.gov/region9/orgchart.html>

---

**Agency for Toxic Substances and Disease Registry (ATSDR):** Susan L. Muza (415) 947-4316, muza.susan@epa.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

## EPA Region X (Seattle) Relevant Contacts for Enhanced Collaboration

The following offices and managers/senior scientists in EPA's Seattle regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Beth Anderson can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for most effective interaction with the EPA.

US EPA Region X  
1200 Sixth Ave. Ste. 900  
Seattle, WA 98101

**Region X Office Director:** Dan Opalski (206) 553-1855, opalski.dan@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

**Region X Office of Environmental Cleanup - Director:** Dan Opalski (206) 553-1855, opalski.dan@epa.gov

**Site Cleanup Unit 2:** Deb Yamamoto (206) 553-7216, yamamoto.deb@epa.gov

**Site Cleanup Unit 3:** Sheila Eckman (206) 553-0455, eckman.sheila@epa.gov

**Site Cleanup Unit 4:** Cami Grandinetti (206) 553-8696, grandinetti.cami@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The Director is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs) responsible for the overall management of each site cleanup report to the SF branch chief.

**Regional Superfund and Technology Liaison (STL):** position vacant

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

**Regional Toxics Integration Coordinator (RTIC):** Marcia Bailey (206)-553-0684, bailey.marcia@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

**Regional Science Liaison (RSL):** Roseanne Lorenzana (206) 553-8002, lorenzana.roseanne@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

**Region X Community Involvement and Public Information Unit:** Jeff Philip (206) 553-1465, philip.jeff@epa.gov

Superfund's Community Involvement Coordinators reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

**Regional Environmental Justice (EJ) Office:** Running Grass (206) 553-2899, grass.running@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

**Regional Administrator for Region X:** Dennis McLerran (206) 553-1234, McLerran.Dennis@epa.gov

**Deputy Regional Administrator for Region X:** Michelle Pirzadeh (206) 553-1200, pirzadeh.michelle@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

**EPA Region X Organizational Chart:**

<http://yosemite.epa.gov/R10/EXTAFF.NSF/Programs/Organization+Chart/>

---

**Agency for Toxic Substances and Disease Registry (ATSDR) - Senior Regional Representative:** Richard R. Kauffman (206) 553-2632, rkauffman@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR reps work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.
