May 2012

Hanford Site Worker Eligibility Tool (HSWET)

10 CFR 851, Worker Safety and Health Program

Contractors must develop and implement a worker safety and health training and information program to ensure that all workers exposed or potentially exposed to hazards are provided with the training and information on that hazard in order to perform their duties in a safe and healthful manner.

Access to the Worker Eligibility
please submit site form APPLI
approved, you will be sent a password enabling you to log in to the system.

- ✓ **HSWET** is a tool for use by FWS to verify worker training and qualification prior to work assignment.
- ✓ HSWET merges training, medical clearance and flag for work restriction information in one spot for FWS.
- ✓ HSWET eliminates FWS “assumptions” during multi-contractor work activities.
