Program (WTP) Webinar

# Commit to C.A.R.E.

(Community, Awareness,  
Responsibility, Equity)

**OCTOBER 4, 2023  
2:00 - 3:00 PM EDT**

**Commit to C.A.R.E. (C2C)** is an online public health awareness campaign to promote awareness and control of infectious diseases in the built environment. The campaign was initially funded by a grant from the Centers for Disease Control and Prevention and is the result of a partnership between the American Industrial Hygiene Association and the Integrated Bioscience and Built Environment Consortium.

A significant part of the campaign is the C2C website, a central place to access science-based information about various infectious diseases and how to reduce their spread in the workplace. C.A.R.E. is an acronym that reflects the principles of community, awareness, responsibility, and equity. The C2C website has free resources and tools that can be used to educate workers and communities, thereby influencing personal actions to make the built environment safer by reducing the spread of infectious diseases.

In this webinar, panelists will share details about C2C and how organizations, including small to medium size businesses, can use available tools and resources to enhance workers' awareness to reduce infectious disease risk in the workplace. Panelists will showcase the many resources that are available through the C2C website.

**EVENT REGISTRATION:** [https://nih.zoomgov.com/webinar/register/WN\\_uZkzdpiMSnmbZ0wMFfeK\\_A](https://nih.zoomgov.com/webinar/register/WN_uZkzdpiMSnmbZ0wMFfeK_A)

## LEARNING OBJECTIVES

- Describe the mission and goals of the C2C online public health awareness campaign.
- Increase public awareness of infectious disease and how to reduce risks in occupational settings and the built environment.
- Explore the application of a COVID-19 risk assessment tool.
- Share more about the free products and resources that are available to the public.

## MODERATORS

- **Sharon Beard**, NIEHS Worker Training Program
- **Gary Johnson**, NIEHS Worker Training Program

## PANELISTS

- **Lawrence Sloan**, Chief Executive Officer, American Industrial Hygiene Association
- **Ken Martinez**, Chief Science Officer, The Integrated Bioscience and Built Environment Consortium
