

How we move forward...../.

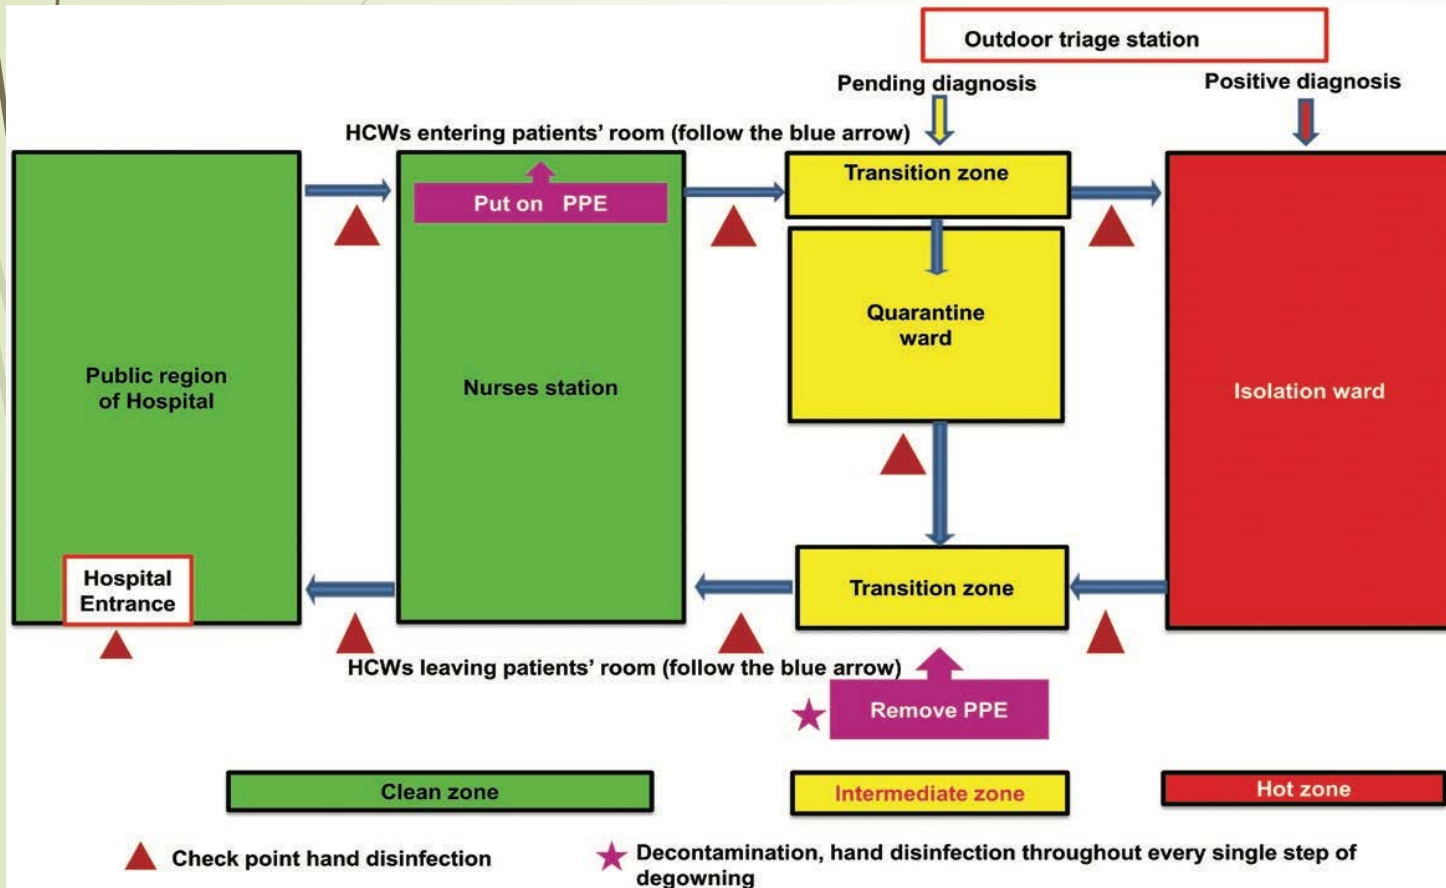

The conversation as the ground shifts from moment to moment

NIEHS has already made enormous contributions to combatting Covid-19

- “Just in time” **Essential** worker training
 - Supporting grantees as they train/support
 - Providing a platform to share research and training strategies
 - Keeping us all centered and *resilient*
- 

NIEHS can continue and boost the dialogue on how we can keep workers safe... it can't just be about PPE.....

Identifying stationary and mobile facilities that have adopted the hazmat approach – hot zones, clean areas, decontamination for workers. Let's amplify and broadcast good models

Building upon CDC guidance.....

OK – back to PPE but beyond

- More detailed training on donning and doffing of PPE in the landscape of "extended use" and "reuse" – we did it for Ebola; let's do it for Covid..... and decontamination

NETEC

COVID-19 PPE: Donning and Doffing

	<p>Items Required</p> <p>GOWN – standard isolation N95 Respirator Eye protection - Face shield or goggles Gloves</p>	<p>Hand Hygiene</p>		<p>Donning Order</p> <ol style="list-style-type: none"> 1. Hand Hygiene 2. Gown 3. Respirator 4. Eye Protection 5. Gloves

Encourage
you to build a
list and share
with Chip and
NIEHS

We need ideas and strategies and
innovation in training and support
