Worker Training Program

Protecting Yourself from COVID-19 in the Workplace

Agenda

- Webinar Welcome
- Spanish Translation Guidance
- NIEHS Welcome
- Agenda & Panel Introductions
- Individual Clinical Risks of COVID-19 for Volunteers
- Public Health Approaches to Prevention During Disaster Response
- Overview of New AIHA/NIEHS Guidance
- The Ecosystem of Disaster Volunteers
- On the Ground Training; Lake Charles
- Panel Q&A

Panelists; Full Bios in Chat

Alexander Isakov, MD, MPH

- Executive Director, Office of Critical Event Preparedness and Response, Emory University

Scott Patlovich, DrPH, CIH, CSP, CBSP, SM(NRCM), CHMM, CPH

- Assistant Vice President, Environmental Health & Safety, The University of Texas Health Science Center at Houston

Laura H. Weems, CIH, CSP, CHMM

- Senior Industrial Hygienist, U.S. Army Corps of Engineers

Lisa Orloff

- President, Resiliency Advisors, LLC; Founder, World Cares Center, 501c3

Debora Gonzalez

- Health & Safety Coordinator, National Day Laborer Organizing Network

Disaster Response Resource Center

During our times of greatest need, our friends, family, neighbors, and people we've never met travel from far away, rushing to our side as volunteers. Every community depends upon volunteers for disaster preparedness, response, and recovery.

AIHA urges those who work or volunteer as response and recovery workers, as well as the public, to guard against hazards during disaster response and recovery efforts. Some common hazards include downed power lines, carbon monoxide poisoning, exposures during flood and mold cleanup, and risk of structural collapse.
